WHAT WE DO

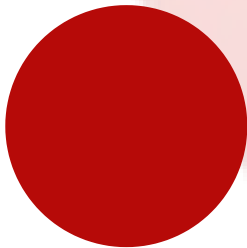

Gather Montly KPI's Analysis & Report

Each month we will gather and analyze Key Performance Indicators specifically for your hygiene department from your software. We will provide you with a detailed report on what is working well and what needs attention.

Phone Coaching Calls

We will set up regular coaching calls with your hygienists to review the business and your growth. We're always available via phone, email and text if you have questions or concerns. Regular calls enable us to work remotely with you to encourage communication, implementation and help to provide solutions.

Systems Analysis

We will review any systems you currently have in place. Additionally, we look for missing systems that need to be documented and recorded for efficiency in your practice. Based on the analysis we will discuss a solution to ensuring your Systems are sound and the foundation of your business.

The Team at Practice Dynamics is excited to work with you and your team. Welcome to dynamic accountability and GPS Remote Coaching For Your Hygiene Department.
